

Tuesday 1st November 2022

NEW PAVEMENT INSTALLATION: November – December 2022

Dear Business,

As part of the West End Project, the works to create a new public space at Princes Circus is continuing with new pavements being installed outside your business during November and December. A plan of the pavement installation is included on the other side of this letter.

Working on the pavements

From Monday 31st October we will begin to add new pavements across the northern area of Princes Circus. While we will be laying new pavement outside your business we will always make sure that access is available for your customers and where needed will complete any final sections outside doorways out of your working hours.

Ahead of work starting near your business, you will be visited by a representative from the project team to talk through the work and any concerns you might have. The visits for the first section between West Central Street and Grape Street have already taken place.

Key information

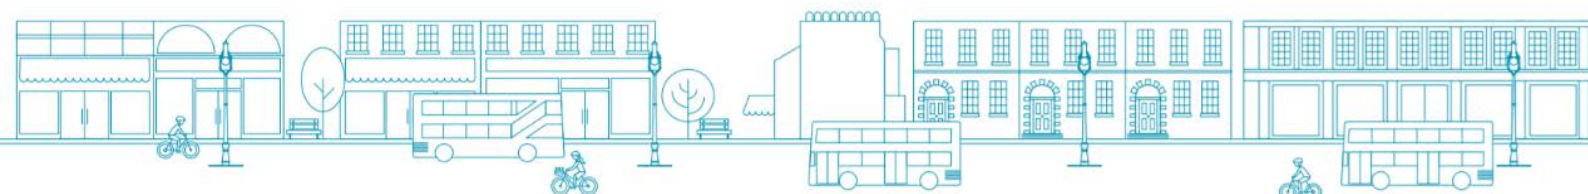

- We will be working on the pavements around the northern section of Princes Circus
- Access will be always be available for your customers
- We will visit you in person before the work outside your business starts
- idverde working hours Mon - Fri: 8am – 6pm and as needed Saturday: 8am – 1pm
- 24 hour contact phone number: 0800 141 2543
- The whole project is expected to be completed in Spring 2023

For all works, noise should be expected throughout the construction period and at any point during the permitted working hours. The loudest work is the demolition works and cutting of new paving slabs. Where possible acoustic barriers are being used to reduce the sound.

Keep in touch

Please note that programme dates are subject to change and any delays will be updated on our website where we also continue to share the weekly look ahead of works. You can also sign up to our electronic newsletter for regular updates:
